EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Abstract:

Please deleted "(Figure)" on the last line of the abstract.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or suggest a process for fractionating a crude C₄ fraction comprising butanes, butenes, 1,3-butadiene, C₄-acetylenes and 1,4-butadiene wherein a gaseous side stream from a first extractive distillation column is feed to a first side column to separate into an overhead stream and a bottom stream wherein the overhead stream comprises C₄-acetylenes and is condensed at the top of the column and the bottom stream comprising solvent is returned to the extractive distillation column.

Also, no prior art of record discloses or suggests a process for fractionating a crude C₄ fraction comprising butanes, butenes, 1,3-butadiene, C₄-acetylenes and 1,4-butadiene wherein a bottom stream from the first extractive distillation column is cooled by indirect heat exchange with the crude C₄ fraction and the bottom stream is condensed and returned the first extractive distillation column and a liquid or a substream of the liquid from the first extractive distillation

column at a theoretical plate, which is one or more theoretical plates below the point at which the gaseous side stream is taken off and the liquid is heated and/or vaporized by indirect heat exchange with the bottom stream from the first extractive distillation column and the heated and/or vaporized liquid is then returned to the first extractive distillation column at the same theoretical plate or above, wherein the theoretical plate from which the liquid or liquid substream is taken off being chosen so that the energy requirement for the first extractive distillation column is minimized.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to TAM M. NGUYEN whose telephone number is (571)272-1452. The examiner can normally be reached on Monday through Thursday.
